

MEDICAL
ACCOUNTANTS LTD

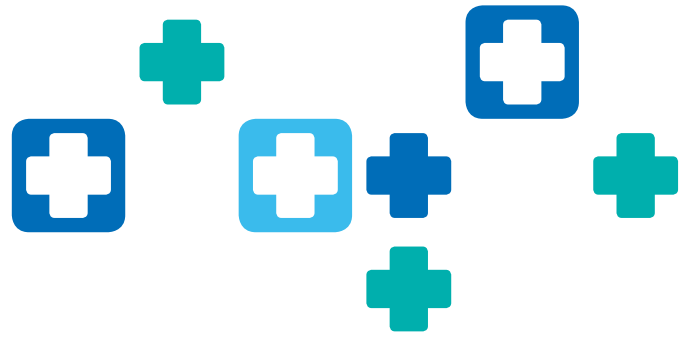

Expert advisers to the healthcare sector

Dentists

We are familiar with the issues affecting dentists, whether principals, partnerships, companies or associates. We can ensure your accountancy and tax affairs are managed effectively to maximise your income.

HELLO

We provide specialist accountancy, tax and financial planning services to healthcare professionals throughout England. The term 'specialists' seems to be everywhere these days and just about everyone purports to specialise in something. However, we truly are 'The Specialist Medical Accountants' when it comes to the healthcare profession.

We currently act for over 1,500 medical professionals and although our niche expertise is rare within the industry we pride ourselves on offering a competitive service without compromising on quality.

We help:

- Dentists
- GP Practices
- Pharmacists
- Limited Companies
- GP Partners, Salaried GPs & Locums
- Consultants & Hospital Doctors
- Employed Medical Professionals
- Retired Medical Professionals

Whether you are an individual, an employee or a practice owner our dedicated team of experts can support you to ensure your money works for you.

Our personalised service is tailored to reflect your specific requirements and with our track record and sector expertise, we are confident that we can provide a far superior service to your existing accountant.

Why Us?

- 1 Our sole focus is to deliver exceptional accountancy, tax and financial planning services for healthcare professionals.
- 2 You have very specific financial requirements, so we provide strategic advice that goes well beyond compliance to deliver tangible results.
- 3 We have one of the largest dedicated medical accountancy teams in England.
4. Changing your accountant is a simple, straight-forward process and there is no additional work for you!

"They've handled my accounts for many years and have always been available for advice. Having recently had advice regarding becoming incorporated, BW Medical has guided me easily through this process. I would be happy to recommend their professional service."

Dr R Coates BDS

Dentists

Dentistry is a niche vocation where the contractual framework for generating income is completely different to the general commercial sector. It is therefore very important that dentists choose an accountant who fully understands that framework and has the experience to provide a professional and effective service.

We have a large team of specialists with years of experience in dealing with healthcare professionals and in particular dentists. Whether you are a principal practising alone, in partnership, in an expense sharing arrangement or operating through a company or as an associate we have the expertise to ensure that your accountancy and taxation affairs are handled with skill and clarity.

Associates

We provide an efficient cost effective service to Associates which entails the preparation of clear and meaningful accounts together with a tax return which we will submit online once we have your approval.

We invest time in our client relationships, so we will fully explain your accounts so you can make informed financial decisions. We also clearly set out your tax liabilities and a schedule of when payments will be due so you can plan accordingly.

If you provide your records, we will do the rest.

And if you are looking to buy a practice we will support you through that process and assist you with due diligence and the sourcing of finance.

Principals

Our team will as a matter of course:

- prepare industry tailored accounts that show a clear picture of your financial performance and position
- discuss those accounts with you and explain your tax position clearly and upon approval file your tax return online
- be there to provide on-going telephone support

We can also:

- Prepare comprehensive management accounts on a monthly or quarterly basis
- Assist in developing budgets and forecasts
- Provide bookkeeping support and advice
- Deliver tax planning support
- Provide support and advice on practice acquisitions and sales and help with the sourcing of finance

For all dentists we also offer specialist medical advice in connection with the NHS Pension Scheme. Our Pensions Management Service is unique to BW Medical and enables our clients to have the required support and guidance regarding their pension position and available options.

"I used to dread sorting out my annual dental accounts and tax return every year but have always found BW to be friendly, approachable and very helpful with their wealth of expertise across the board and specifics to NHS Dentistry and pensions. They always make paying my tax bill as painless as possible, get back to me promptly with any queries I may have, and I hope they will continue to do so for a couple more decades to come! Thank you"

Mrs C Jackson BDS

Key contacts - Dental

While it may seem clichéd we firmly believe our people are our greatest asset.

Their expertise and experience in healthcare finance truly sets us apart from our competitors.

We are extremely proud of our 30+ strong team and that fact we have breadth of expertise which is unique. An introduction to our experts is available on our website, you can read all of our staff profiles so you can be confident that when you appoint BW Medical Accountants you will receive expert advice at all times.

An initial consultation costs nothing, once we understand your specific circumstances we can provide a fixed fee for our services which includes free telephone/email support and you can make an informed decision as to whether you'd like to appoint us as your advisers.

Already have an accountant? Switching is easy, there is no extra cost or work involved and we take care of everything to ensure a smooth transition.

Let's start by having a chat, either on the phone or in person.
